

# RAIN GARDEN

**“NEW JERSEY’S LARGEST RAIN GARDEN”**

**KIWANIS PARK  
RAHWAY, NEW JERSEY**

## Green Infrastructure Project

## Example Rain Garden Plants

Soft Rush  
(*Juncus effesus*)

Black-eyed Susan  
(*Rudbeckia hirta*)

New England Aster  
(*Symphyotrichum novae-angliae*)

Red Columbine  
(*Aquilegia canadensis*)

Red-twig Dogwood  
(*Cornus sericea*)

Buttonbush  
(*Cephalanthus occidentalis*)

This garden is designed to capture stormwater and reduce flooding. Rain gardens keep rainwater from overflowing the sewers. Rain gardens are beautiful, low maintenance, and inexpensive gardens you can install at home.
