

# THE ONE BARREL AT A TIME CO-OP

## Edwin W. Messey, MD

Edwin's interest in art, especially drawing, began as a child. He developed the arts as a hobby, painting and drawing using all mediums including oils, acrylics, water color, pen and ink, and pencil sketching. He focuses on still-lives, landscapes and portrait painting.

Dr. Messey is very involved in community activities including past President and a member of the local Willingboro Art Alliance. He organized an International Festival in Willingboro for several years.

His rain barrel design is an outdoor landscape of fall foliage.
