

RAIN GARDEN DESIGN WORKSHOP

HOSTED BY: THE DEAL LAKE WATERSHED ALLIANCE + RUTGERS WATER RESOURCES PROGRAM

JOIN US FOR THIS **FREE** AND **PUBLIC** EVENT TO LEARN ABOUT THE BENEFITS OF INSTALLING A RAIN GARDEN ON YOUR PROPERTY

RAIN GARDEN: A depressed area in the landscape that **collects rain water** from a roof, driveway or street and allows it to soak into the ground. Planted with **grasses and flowering perennials**, rain gardens can be a **cost effective** and **beautiful** way to **reduce runoff from your property**. Rain gardens can also help filter out pollutants in runoff and provide food and shelter for butterflies, song birds and other **wildlife**.

ATTEND AN EDUCATIONAL SEMINAR TO QUALIFY FOR:

- A **FREE 30 MINUTE CONSULTATION** WITH A RUTGERS DESIGN PROFESSIONAL
- UP TO **\$300.00** REBATE FOR INSTALLING YOUR OWN RAIN GARDEN
