<i>(Jeremiah Bergstrom, LLA, ASLA, Rutgers)</i> |
| 3:00 pm-3:30 pm | Q/A Session |
| 3:30 pm | Adjourn |

Why should your municipality participate?

Join the professional staff from the Rutgers Cooperative Extension (RCE) Water Resources Program at this training program hosted by the Passaic Valley Sewerage Commission. This training program will highlight lessons learned by the RCE Water Resources Program in green infrastructure strategies that work in New Jersey, how to retrofit green infrastructure in urban centers, and the associated costs of implementation and maintenance of these systems.

Participants will qualify for five continuing education credits (CEUs) for attending this program. Space is limited, and priority will be given to CSO permittees in the PVSC service area.
