

Martin Luther King Drive
Green Infrastructure Information Sheet

<p>Location: ~500 Martin Luther King Drive Jersey City, NJ 07302</p>	<p>Site Use: Public</p>
<p>Lead Project Partner: Rutgers Cooperative Extension (RCE) Water Resources Program</p>	<p>Watershed Name: Hudson River</p> <p>Targeted Pollutants: total nitrogen (TN), total phosphorus (TP), and total suspended solids (TSS) in surface runoff</p>
<p>Ward: F</p>	<p>Estimated Stormwater Captured and Treated Per Year: To be determined</p>
<p>Green Infrastructure Description: Tree trenches and porous pavements</p>	
<p>Existing Conditions and Issues: This site is located along Martin Luther King Drive between Bramhall Avenue and Forrest Street in Jersey City. There is approximately 2,200 square feet of deteriorating sidewalk that will need repair.</p>	
<p>Proposed Solution(s): Sidewalk can be removed and replaced with permeable pavers and tree pits. The Martin Luther King Drive green infrastructure project in is proposed to address the ongoing need for reducing stormwater volumes in Jersey City’s combined sewer system.</p>	
<p>Potential Partners/Stakeholders: RCE Water Resources Program, Jersey City Municipal Utilities Authority, City of Jersey City</p>
