<i>(Jeremiah Bergstrom, LLA, ASLA, Rutgers)</i> |
| 2:30 pm-3:00 pm | Q/A Session |
| 3:00 pm | Adjourn |

Why should your community participate?

Join the professional staff from the Rutgers Cooperative Extension (RCE) Water Resources Program at this workshop hosted by the Passaic Valley Sewerage Commission and sponsored by the New Jersey Department of Environmental Protection. The morning session will highlight steps to guide you and your municipality to ensure that new development is in compliance with the New Jersey stormwater management regulations. The afternoon session will focus on understanding the importance and benefits of inventorying your municipality's stormwater infrastructure while complying with the state's MS4 permits.

Participants are encouraged to attend both the morning and afternoon sessions of the workshop. Registration for morning or afternoon session only will be available. Space is limited and priority will be given to the 48 municipalities within the PVSC service area.
